

# ULEARNING

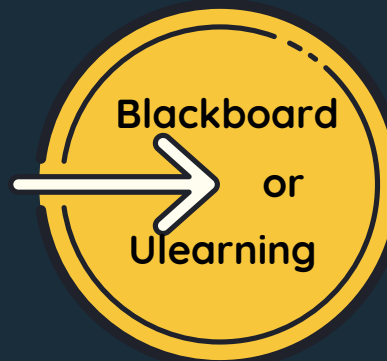

The Graduate School of Life Sciences is a pioneer in digital education and therefore decided to use ULearning as a new digital learning environment.

ULearning can be used to design and teach a blended or fully online course.

## WHY ULEARNING?

View this infographic to see what ULearning can offer for you.

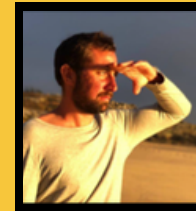

## WHAT WE DO

During an intake meeting we discuss your requirements and the possibilities of ULearning. We offer didactic and technical support in order to optimally design your blended or online course.

We also offer various support tools to help you design and develop your course on the platform. In our Teams community you will find extensive information and you can ask questions to us or engage in conversation with colleagues.

## SUPPORT TEAMS

### Biomedical Sciences

Lars van der Plank

Kelly Kwant

Niels Morgenstern

Edwin van Ditmarsch

### BioSciences

Daphne van Dulst

Mirthe Mangnus

Thomas Wind

### Coordination

Anne-Petra Rozendal

## GET STARTED

Contact the support team of your Faculty for an intake and to request your first course.

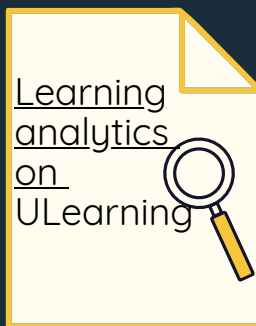

START

## USE OF DATA

Ulearning stores various forms of data, which you can use for student progress and to improve your course design.

Curious where to find this data and how to use it?

Then have a look at our Teams Channel about learning analytics

## SUPPORT TOOLS

### Step-by-Step Guide to Course Design

This interactive PDF will help you step-by-step with the (re)design of your course. Open the guide in Adobe Acrobat Reader to make sure that you can access all the interactions.

### 'Get to know ULearning' manual

In this manual the basics of ULearning are explained and you will learn everything you need to know about the platform to jump-start creating your online course!

### Use the online tool 'How to design my education on Ulearning?'

Through a selection tool this module guides you towards a suitable template for your course. You will also find instructional videos and tips on moderation.
